Complete your workflow with quality control microorganisms for growth promotion testing

Thermo Scientific™ Quanti-Cult Plus™ provides specific, reproducible numbers of viable microorganisms with <100 CFU (colony forming units) per inoculum with full range of pharmacopeia referred strains.

Trust in complete traceability with fully characterized ATCC® Licensed Derivative strains.

Choose Quanti-Cult Plus kits for:

Guaranteed performance

Pharmacopeia-compliant, accredited reference material producer in accordance with ISO 17034

Improved safety

Reduce the risk of contamination and infection with ready to hydrate, two-vial system that requires zero organism handling

Enhanced efficiency

No serial dilution or stock culture maintenance required
